

"The art of Healing has its origin in the woods, and the forest is still the best Medical School."

**THE INDIAN PURGATIVE PILLS;**  
OR  
**UNIVERSAL MEDICINE**  
OF THE  
**NORTH AMERICAN COLLEGE OF HEALTH,**  
Established at Washington, D. C. Jan. 8, 1832.

ADDRESS TO THE AMERICAN PEOPLE.

Fellow Citizens:

At a time like the present, when our country is literally flooded with nostrums brought from foreign climes, you may perhaps think it an act of temerity in us to offer, as a candidate for your patronage and favor, a Medicine which is strictly AMERICAN. Common sense, however, teaches us, that those herbs which spring spontaneously from our native soil, must be better adapted to our constitutions than foreign medicines however useful the latter may have been in the countries to which they belong. The climate of the United States stands unrivaled for the production of medicinal plants, and a very little investigation will suffice to convince the most skeptical that our own country is able to supply all our wants, independent of foreign assistance.

Deeply impressed with the importance of the above facts, we venture to recommend the INDIAN PURGATIVE to the patronage of our fellow citizens in every section of the Union, as a natural remedy, applicable to our constitutions, and competent to cure every curable disease.

In bringing a medicine before the public for the first time, it is generally thought necessary to impress the people with an idea of the difficulties encountered in its discovery, or the antiquity of its origin; thus one tells us that his medicine is "a newly discovered chemical compound the result of many years intense study and scientific research;" and another ascribes the honor to somebody's GRANDFATHER, &c. Now as the success of a medicine must depend on its intrinsic merits, and not on the time or manner in which it was discovered, we cannot see the use of falsifying for the purpose of inventing its origin with a fictitious antiquity. Such auxiliaries are not needed on the present occasion, as a single dose of the Indian Purgative will suffice to convince every invalid (and to such only we look for an impartial verdict) that its curative effects are incalculably superior to those of any other medicines now in use. Proud of this superiority we scorn fictitious aid, but give it to the world for what it is—SIMPLY a compound of RICHLY SIMPLE HERBS, used for the cure of disease, by the COPPER COLORED WARRIORS OF THE WEST.

One of the herbs is an expectorant, one a cathartic, one a diuretic, and one a cathartic. The proper combination of the above forms an expectorant and cathartic medicine, of such EFFICACY and POWER as has hitherto been unknown in the art of healing. Its mode of curing is first to neutralize all putrefactive matter in the body; second to cause the expulsion of the same through the proper outlets, provided by nature for that purpose; consequently its action is not confined to the bowels, although it is greatest there, but extends to the nostrils, throat, salivary glands, lungs, skin and kidneys.

Each of the above drains is intended by nature for the discharge of an excretion peculiar to itself, and although we may for a time compel the constitution to evacuate the whole through one drain, such treatment cannot fail to derange the mechanism of the body, and utterly ruin the health of the patient. It is true that all diseases arise from impurities of the blood, but it is also true that nature has provided many channels for the discharge of these impurities; therefore we are not likely to benefit the patient by tramping on the laws of nature, in bringing all the different kinds of excretory matter through one channel; hence the evil of attempting to cure all diseases by a course of sweating, or vomiting, or physic, or any other method which opposes only one class of excretories.

No medicine deserves to be called a Universal Remedy unless its effects extend to each and every one of the natural drains and this power is not even claimed by any medicine except the Indian Purgative. In accordance with these several properties, the operation of the Indian Purgative is regulated by the state of the patient's body. Thus, if the obstructing matter is lodged in the urinary excretory, it will act as a diuretic; if in the bronchial vessels or pulmonary excretory, it will induce copious spitting; if in the cells of cellular membranes or excretory of the skin, a gentle but effectual perspiration will be kept up; and under every combination of circumstances, it will act more or less as a cathartic. Here it is proper to remark, that although the purgative always induces an increased number of saline evacuations, and is capable of overcoming the most obstinate case of costiveness, it does not raise a "humor" in the bowels, nor does it deplete the healthy juices by over evacuation. Its effects extend to every part of the system, and for that reason are not liable to overaction in any one part.

No disease ever was or ever will be cured unless by medicines which produce the effects above mentioned. Every system of practice more or less perfect, in proportion to its power of acting on the different excretories; and the Indian system claims pre-eminence only because it possesses the power of opening, and keeping open all the natural drains.

The inestimable value of a medicine which will act on all the excretories, at one and the same time, is more apparent when we reflect that the human body is a complicated machine, consisting of numerous different and distinct members, all of which are so intimately connected, and mutually dependent, that no one part can be injured without producing a corresponding degree of injury on every other part; therefore one part of the body cannot be diseased, and another part healthy; neither can one part be cured while another part remains diseased. Disease begins in the blood, and as the blood flows to every part of the system, every part of the system must become more or less diseased; no disease is cured unless the cause is removed, and to remove the cause we must restore the blood to a healthy state, and if the blood is made healthy, every part of the body must be the same.

We have now illustrated the natural or Indian system of practice, and the more it is investigated the more reasonable it appears; as regards its truth, we have only to reflect that it was taught by nature and therefore must be true. When the body stands in need of nourishment, we are impelled by hunger to eat; and when it is diseased, we are impelled by instinct to use medicine; and there cannot be a doubt that if we lived in a state of nature, this instinctive feeling would always direct us to the proper medicine; hence the superiority of the Indian System. The art of healing was first learned in the woods, and to this day the untutored savage is the best medical teacher; for the Indian practice is the only one which is consonant to those eternal and immutable laws which govern the animal economy.

Having already proved that the Indian Purgative acts in direct accordance with the laws of nature, and is therefore equal to the cure of every curable disease, we will now enumerate a few of the complaints for which it has been tried, and found a certain cure among the Indians, and white settlers of the Far West. These are—

FEVERS, Intermittent, Remittent, Nervous, Inflations and Putrid Fevers; MEASLES; ERYTHSIPILIS; SMALL POX, INFLAMMATIONS OF THE Brain, Throat, Stomach, Liver, Lungs, Intestines, Kidney, and the Bladder; RHEUMATISM, Acute and Chronic; SPITTING AND VOMITING OF BLOOD; DIARRHOEA, DYSENTERY AND CHOLIC; SYNCOPE, APPOXY, EPILEPSY, TETANUS, EPILEPSY, WHOOPING COUGH, AND PALPITATION OF THE Heart; INSIPID CONSUMPTION and Marasmus; DROPSY OF THE Head, Chest, Abdomen, and Limbs; SCROFULA, Scabby, and Scrophulous CANCER; GRAVEL, LOSS OF APPETITE, COSTIVENESS, SICK HEADACHE, PAINS IN THE Back, Stomach and Side; ULCERS AND SORES OF every description; HYSTERICS; WEAK NERVES; LOWNESS OF SPIRITS; Also, LENCORRHOEA; MONORRHOEA SUPPRESSION, and all other delicate Female Complaints.

Besides the above, it has been found invaluable in the diseases of infants, so that in the new settlements of the Far West, where the inhabitants keep it constantly beside them, the children are brought up in good health,

without any assistance from Medical Men. To sum up the character of the Indian Purgative in a few words, it is only necessary to state that it possesses every curative property which can be possessed by Medicine, viz: the power of opening and keeping open all the natural drains of the body; and that a perseverance in its use, is all that is necessary in order to assist nature in the cure of every "disease to which flesh is heir to." THE THOUSANDS OF CURES that have already been effected in Philadelphia and Baltimore and other places fully warrant the belief that when this medicine shall become generally known, disease of every kind will be driven from our land.

Principal Office for the New England States, for the sale of the above VALUABLE PILLS, No. 193 Tremont street, Boston.

PRICE 25 CTS. PER BOX, WITH FULL DIRECTIONS.

Wm. FAY, Agent, Rutland Co.

## CASES OF DYSENTERY.

BOWEL Complaints, Fevers, and other diseases incident to the season, will be surely prevented by the use of Morrison's Pills. It has been tested in every climate. Old standing Chronic and other diseases, incurable by the regular Practice, are effectually cured by the persevering use of Morrison's Pills and Powders. This has been done in thousands of cases. Every kind of Fever, the Small Pox, Measles, that terrible disease the Croup, and every disease yield up their violence to the sure and effectual Goddess of Health, The Morrison's Hygeian Universal Medicine of the British College of Health. See "Morrison's Pills" by J. Morrison the Hygeist. Do not be induced to buy some other kind of those who are using the VERY WORDS OF THE HYGEIST to vend a far inferior medicine, "as can be seen by comparing the Morrison's, with their standing advertisements. To those taking Morrison's Pills, we say, do not stop taking them when you feel worse, rather increase the doses, you must feel some when the medicine begins to act upon the foul acrimonious humors of the body, which often have been left to fix themselves with almost fatal grasp to the intestines, and many times made stronger still, by mercurial and other hurtful poisons. Many a restored patient says, I tried your Morrison's Pills a few days, felt no better, I think worse, and stopped using them, but soon found I must do something and commenced again with a determination to persevere, knowing how many testify that they grow stronger instead of weaker by a continued use of them; and here I am hearty and well, better than I have been for years before, and as I had given up all hope of ever being again, I am WELL, enjoying a sound mind in a sound body. O how thankful I am that I took Morrison's Pills and persevered in taking them. What a blessing to the world are Morrison's Pills; and would that I could induce multitudes who are miserably sick, and so hounded to the GOOD OLD REGULAR PRACTICE, that they will not take even that which is curing persons diseased like themselves all around them. No! No! It's all Quackery! Quackery! Nonsense. I will not take this stuff prepared to gull the public and get money. No, not I. I am too well informed to be caught thus. I will die first, and then thousands do so on (who might be cured by using Morrison's Pills) until they are as black as the Ganges in Burlington and every town in the Union can furnish Patients, and plenty of them too, cured by the use of Morrison's Pills, of almost every named disease in the vocabulary of Materia Medica. The reader will bear in mind that there are not so many real diseases as there are names given; but an ever fruitful naming Faculty are daily giving names to diseases which exist only (if any where) in the Brain of him who gives it. The doctrine first broached by J. Morrison the Hygeist in 1825, 1830, ago, that the "vital principle is contained in the Blood," and "every thing in the body is derived from the Blood," and that all diseases arise from impurity in the Blood, and that "Purgation by vegetables is the only effectual mode of purifying the Blood, and eradicating disease," has been with unparalleled rapidity over the whole habitable civilized world. His medicine, (by which he was cured (see Morrison's, or the sketch of his life in Pamphlet form to be had free of most of the Agents) after thirty-five years of suffering under the Medical Faculty,) prepared of vegetables solely, and upon the principles above quoted, have not failed to act upon others as it did upon him. It prevents disease, and it is quite a sure cure of any disease if persevered in, unless the person is past cure. At any rate, no other medicine cures so many. Complaints are not made against the medicine made by Morrison the Hygeist, but there are Pills made in New York called Morrison's Pills which have caused much complaint. Let it be borne in mind that the Genuine Morrison's Pills have again made their appearance in these United States. Mr Morrison has sent an Agent from London in whom he has full confidence that he will not betray the important trust of sending forth only the medicine sent to him by the celebrated Hygeist in London. And the public will please notice that this medicine takes the foremost rank in giving vigor, activity, life and health. A short time will suffice to complete the recovery the Hygeian cause sustained by its betrayal; and ere long, no other medicine but Morrison's Pills will be wanted. The cause goes on as well as the medicine. The medicine made by Morrison the Hygeist himself, and you will get for \$1 to \$3 that which in many instances will save you a Doctor's bill of 10 to 20 or \$100, and which will give you life and health.

GEO. TAYLOR, 6 1-2 Wall st., New York, member of the British College of Health and sole Agent for the United States sent out by said college.

PANGBORN & BRINSMAID, Jewelers, Burlington, Vt., Agents for Vermont, for Essex, Clinton, St. Lawrence and Franklin counties, N.Y. Every packet sold in the above places we shall sign our names upon; none others are genuine. Our sub-agents will also sign their name upon those they sell.

PANGBORN & BRINSMAID, Packages \$1 and \$3 each. Powders 25 cents per box. The Packages contain many more Pills than formerly, and the boxes of Powders are much larger and cost less. Cases of cures will come next.

See that the Packages are signed by PANGBORN & BRINSMAID, Vermont State Agents, appointed by Geo. Taylor, 13 Chamber St. New York.

Messrs ORVIS & ROBERTS, of Factory Point, are the sole agents for the county of Bennington. 1841

**ELIOT'S VEGETABLE BALSMIC.**  
N. H. DOWN'S  
**Vegetable Balsamic Elixir.**

FOR Coughs, Colds, Consumption, Catarrh, Croup, Asthma, Whooping Cough, and all other diseases of the head, chest and lungs.

Pamphlets containing a history of the medicine—a sketch of the diseases for which it is recommended, certificates from unquestionable sources—ample directions accompanying each bottle—may be had of any of the Agents, gratis.

CERTIFICATES.

For the benefit of the afflicted, I beg leave to give the Rev. N. H. Down's Vegetable Balsamic Elixir, the highest possible recommendation. I have given it to a child of mine whose lungs were evidently dangerously affected and for whom we were much alarmed. After having tried many other remedies in vain—the result in the disease is now apparently removed and the child restored to health. To effect this, one phial only has been used.

STEPHEN CHANDLER.

Stratford, June 22, 1836.

See that the above medicine is for sale at the Rutland Book Store.

W. FAY, Agent.

Certificate of Benjamin Bailey, Jr.

THIS may certify, that for more than two years I have

been under a severe and distressing affection of the lungs, calling in the aid of Physicians that could be obtained, with little or no relief until I despaired of ever being able again to benefit myself and family; and were it not for the use of opium to keep up the excitement, should not have been able to get about at all. While in this condition, considering myself to be a firm consumptive, I was induced to take a bottle of Rev. N. H. DOWN'S Elixir, and found immediate relief therefrom—lost aside my opium—continued the Balsamic Elixir—was able to be about my business, and have this continued for the last six months comfortable, and have no hesitation in saying to the public that the said Balsamic was the only means of my recovery, and do most cheerfully and earnestly recommend it to the public.

BENJAMIN BAILEY, Jr.

Canton, April 26, 1837.

## Certificate of Luke Hitchcock.

HAVING received great benefit from the use of the Rev. N. H. Down's Vegetable Elixir, I take pleasure in recommending it to others. Its effects were to relieve me of a cough with which I had been troubled more or less for several months; it promoted expectation and relieved me of an uneasy sensation about the chest, which I had felt nearly a year. As I could procure only one bottle at the time, I have not had an opportunity of testing its merits to the extent desirable in effecting a perfect cure of a diseased state of the lungs; but, from what relief I have experienced, I think it worthy of a trial by all afflicted with lung complaints, if attended to seasonably.

LUKE HITCHCOCK.

Cazenovia, June 17, 1837.

## Certificate of B. G. Paddock.

FROM my personal knowledge of the good effects of the above named medicine, and information from various sources, I cheerfully concur with the above in recommending the "ELIXIR" to those afflicted with complaints of the chest and lungs. It is a safe and pleasant medicine, and the numerous recommendations of its value from civil officers, physicians, druggists, ministers of the gospel and others, should seem, at least, to claim for it a trial on the part of the afflicted.

B. G. PADDOCK.

Cazenovia, June 20, 1837.

## Certificate of Robert Simpson.

THIS may certify that for a long time I have been troubled with a violent pain in my stomach, which wasted my strength and reduced me so low that my life was despaired of. Physicians could render me no essential service, and I was giving away to despair, when I was persuaded with much reluctance to try the effect of N. H. Down's Balsamic Elixir, and it is with pleasure, gratitude and confidence that I state that it is my firm belief that it saved my life; and since I have begun to use it I have been gradually improving, so that I can labor, and believe that if I follow it up it will eventually restore me to my former health. I therefore esteem it my duty to make this public acknowledgment for the benefit of a suffering community.

ROBERT SIMPSON.

Fairfield, June 17, 1837.

## Albion Corn Plaster.

AFFORDS immediate relief, and effects a certain cure for corns. By its application, according to its accompanying directions, the Corn is softened, attenuated and drawn out by the roots, without the least pain or any of the trouble and danger attending the hazardous and ineffectual practice of extracting the Corn by mere cutting.

A Gentleman from Boston was a number of years distressed with a very painful Corn, had applied every thing recommended without effect, and was rendered a cripple. On applying this plaster, he was perfectly cured of his corn, and lived from his lameness. Price 50 cts.

## DUMPRIES' HIGHLY APPROVED EYE-WATER.

THIS safe and powerful wash for sore and inflamed eyes stands pre-eminent among the ordinary preparations for this purpose. In cases of years' standing, the most unexpected relief has been received, after other application of inferior efficacy has failed. Those who use it pronounce it to be one of the best preparations for those complaints they ever met with. Price 50 cts. a bottle.

Prepared by T. KIDDER, 59 Court street, Boston, sole proprietor and successor to Dr. Coway. For sale by his special appointment, by DANIELS & BELL, Rutland; LEVI LEWIS, Wells; ADAMS, WARNER & Co., Lowell.

No. 4. Oct 10:6w1y

## WIDOWS

OF OFFICERS OR SOLDIERS OF THE REVOLUTION, who were married before the close of their last term of Service, whose husbands served, agreeably to the act of Congress of the 7th, June, 1832, two years, and not less than six months, can now draw during life, or during their remaining single, by virtue of the act of July, 1836, such pensions as their husbands would have been entitled to, under the first mentioned act; whether their husbands may have died during the Officers or soldier who were married after that war, whose husbands have died since the 4th of March, 1815, and before the 7th, June, 1832, can draw so much as their respective husbands would have been entitled to, under the act of June 7, 1832, from the said 4th, March, 1815, to the day of the said husband's decease.

POSTSCRIPT, MARCH 25, 1837.—By a late act of Congress, the benefits of the 31 section of the act of July 4, 1836, are extended to widows who have married since the decease of their first husbands; for whose services, such widows may now claim pensions under said act, provided they were widows at the time of its passage. Also, the widow of any person who continued in the U. S. service until the 31 of November, 1783, and was married before that day, and while her husband was in such service, will be entitled to the benefit of said 31 section.

Pension business under the above mentioned acts and all others, transacted, as usual, by the subscriber.

J. GOVE.

## GREAT EXCITEMENT IN BOSTON!!! TREMBLING AMONG THE MEDICAL FACULTY!!!

WE learn that the distinguished Dr. Watson, 276 Washington street, and Dr. S. C. Hewitt, the celebrated Homoeopath, 227 Washington street, (two of the most skillful practitioners in Boston,) having witnessed the happy effects of Gove's Matchless Sanative in several cases which have come under their observation, have given the general Agent of this great modern medicine, permission to refer to them through the public journals. It is with pleasure, we notice such acts of disinterested benevolence, and this noble generosity of Dr. H. and Dr. W. bespeaks their genuine philanthropy.

WE understand, Dr. Watson is of the opinion, that as the Sanative has created such a tremendous excitement among the Medical Faculty, it must be something extraordinary and far superior to the common nostrums of the day—and there cannot be a doubt, but when the virtues of this great specific shall be duly appreciated by Physicians, they will readily acknowledge it to be the most valuable addition which has been made to the Materia Medica since the days of HIPPOCRATES.

It is further learned that the general Agent of the Sanative has the liberty to refer his fellow citizens to the knowledge of the Doctor. One of the cures, as we learn, was effected upon a young lady afflicted with "LEONARD ANKERS"—and so serious was her complaint, that she was unable to submit to Dr. H.'s usual mode of treatment in such cases. He advised her to try the Sanative, she did so, and before taking one phial, was entirely cured and NOT A FISTULE OF HER DISEASE REMAINS!!! Another, a Gentleman, aged 45, pronounced by all who knew him, to be a "CONFIRMED CONSUMPTIVE," was wonderfully restored to health by the use of only one phial of the Sanative—and he has now well and about his daily business as usual!

It is think the open and candid course pursued by

Dr. Watson and Hewitt richly entitles them to the lasting gratitude of the public—although they may have the whole phalanx of the Medical Faculty pronouncing upon them.

After reading the above, and the following extracts from letters addressed to Dr. Rowland, by his Agents, who can for a moment doubt the powers of the mighty Sanative?

AMHERST, N. H. Jan. 1, 1838.

Dr. Rowland—I sold a phial of the Matchless Sanative to a gentleman who was in a Confirmed Consumption, pronounced PAST ANY RELIEF, and confined to his room—he had settled his affairs and prepared to meet his fate. He has not taken a whole bottle, and says his health is perfect, that he is entirely well, and imputes the cure to the Sanative and to nothing else. Many others who have taken it make similar statements.

Yours respectfully, &c.

THOS. M. BENDER.

ORLAND POST OFFICE, Maine, March 30, 1838.

Dear Sir—The Matchless Sanative has had a wonderful effect in several cases in this town. I sold a phial to a man who had been sick with Consumptive and Rheumatic complaints for 4 or 5 years, and who was unable to dress himself when he commenced taking it. He has recently sent me word that he felt quite well, would dress himself without any trouble, and thinks he shall wholly recover.

Yours, in haste,

R. TRUSSELL, P. M.

RESH POST OFFICE, Monroe Co. N. Y., March 14, 1838.

Dear Sir—In 48 hours after I received the package of Sanative, I sold all of it—and have come to the conclusion that it must be all that is recommended to be. It is sufficient to say, that the benefit derived from a short use of it, has convinced the most prejudiced of its utility. The enclosed money you will pass to my account, and I wish you to send me more of the Sanative as soon as convenient.

Respectfully, &c.

JOHN B. CROSBY, P. M.

Haverhill, Mass. March 26, 1838.

Dear Sir—Numerous cases have come to my knowledge in which the Sanative has proved very beneficial—and one case in particular, in which it performed a wonderful cure. I can procure a good certificate from the patient if you wish. Please credit me with the enclosed money, and forward me more of the Sanative by the bearer.

Yours truly,

THOS. G. FARNSWORTH.

CORNWALL POST OFFICE, Vt. April 6, 1838.

Dear Sir—The Matchless Sanative is very highly esteemed in this quarter, and is getting into general use.

Yours &c.

SAMUEL EVERTS, P. M.

WESTFIELD POST OFFICE, N. Y. Feb. 16, 1838.

Dear Sir—Several pressing cases demand the Sanative at whatever expense it can be sent to me. It has effected some astonishing cures already, and I cannot send for the package you say is on the way. I wish you would send me half a dozen phials by MAIL, and I will pay the extra price of postage on the Sanative. Don't fail to send by the mail, as it will come by weight at \$1 per ounce as postage, and I shall expect it in 12 days from date.

Yours, &c.

ORRIS NICHOLS, P. M.

HARTFORD, Ct. April 12, 1838.

Dear Sir—My daughter, who had a distressing cough, raised a great deal of matter, and who was afflicted with palpitation of the heart, has taken a phial of the Sanative and is now WELL. Others also bear testimony to its good effects.

Yours respectfully,

C. R. COMSTOCK.

PLYMOUTH, Mass. Feb. 6, 1838.

Dear Sir—I have a abundance of matter to tell you concerning the Sanative, where it has performed cures when those who have bought it had scarcely any faith in its efficacy. We have one person now able to attend to her domestic concerns, who was at the time she commenced taking it, confined to her chamber and prostrated on her bed. I will tell you more when I see you.

Respectfully,

ISAAC B. RICH.

BEAVER POST OFFICE, Pa. March 1, 1838.

Dear Sir—Since I last wrote you, I have seen several persons who have been using the Sanative, and in every case it has proved itself, worthy the name it bears. A young man, Robert Mulhery, had been wasting away in a severe consumption for the last two years—and by using this medicine about six weeks, his cough, pains, &c. left him entirely, and he is now so well as to be about his ordinary business.

Indeed sir, from the rapidity of the sales, the value of the Sanative may be safely determined. I am wholly out, have daily calls for it, and wish you would forward me more as soon as possible.

Yours, &c.

A. LOGAN, P. M.

From the Postmaster of Claremont, N. H.

"The above powerful and invaluable medicine is doing wonders in this section of the country, as well as in others. Applications for it have been made in various places in this vicinity. A young lady in this town has been restored from a consumption and confirmed in health by the use of it—No mistake. She had been visited by various physicians, but all to no purpose. One phial of this medicine produced the long desired effect."

A few more bottles of this efficacious medicine may be found at the Post Office if applied for soon. J. N.Y.E.

Sole Agent for Claremont.

Claremont, April 20, 1838.

## From the Vermont Phoenix.

HEAR YE!

THE MATCHLESS SANATIVE (sold by DUTON, CLARK & CO., Agents for Brattleboro, Vt.) has effected many cures of diseases so obstinate as to resist the skill of Physicians and the power of other remedies. The following are a few of the Testimonials of the efficacy of this medicine, which they now cheerfully lay before the public. Many more individuals can be referred to by them as having been greatly benefited by using the Sanative.

Certificate from Thomas Crosby of Brattleboro.

This certifies that my daughter has for a long time been in a decline, and has tried many medicines without effect. She has made use of the Matchless Sanative, which has greatly relieved her. It restored her appetite and sleep, which she had not before enjoyed for a long time. I would cheerfully recommend it to all suffering with consumptive complaints.

THOMAS CROSBY.

Brattleboro, March 13, 1838.

Certificate from Henry Clark, Esq. of Brattleboro.

This certifies that I had suffered for many months from an obstinate cough which required a great variety of medicines, until I used a bottle of the Matchless Sanative which removed it entirely in the course of two or three weeks and restored me to excellent health.

HENRY CLARK.

Brattleboro, March 12, 1838.

Certificate from Saml. Cutting, Esq. of Guilford Vermont.

I Samuel Cutting, of Guilford, Vt. would certify that I have suffered for more than two years past from a severe lung complaint, attended with severe pain in my side and back, and with general debility. I have used a great variety of medicines from various Physicians in my vicinity, and received advice from the most eminent, Physicians of Boston, without the least benefit. I am now using the last bottle of the Matchless Sanative, which medicine has greatly relieved me. The pain in my side is comparatively well, and my strength has gained very much. I feel confident that the Sanative alone has afforded me the relief, and I would cheerfully recommend it to all who are suffering with lung complaints, and advise them to try the medicine without delay.

SAMUEL CUTTING.

Guilford, March 19, 1838.

From Timothy George, Esq. of Orrington, Me.

"My wife has been considered of a consumptive habit for two years, attended with a severe cough, but has always or generally attended to her domestic concerns

until the forepart of last winter, when she had a severe attack of pain in her side, and distressed for breath, immediately called upon one of our best Physicians, who attended carefully upon her, and I was well satisfied with his treatment of her case, though her distress was partially relieved, there was no hope of her recovery, her Doctor told her that she had the consumption, and that her LEFT LUNG WAS PARTIALLY CONSUMED, and seemed to despair of her recovery, as well as myself, we concluded she could not continue but a short time, he left her nothing but sleeping powder to comfort her rest, when providentially I fell in with those Sanative Drops, and through the aid of the Matchless Sanative, she took her first step towards recovery, she continued taking them, exactly according to the directions, and her appetite was soon restored to a child's appetite, and she continued gradually to recover so that I do not know but her health is now as good as it has been since we married, say ten years.

N. B. She took about one and one half bottles when she called herself WELL.

TIMOTHY GEORGE.

Orrington, Maine, April 30, 1838.

The above Medicine is for sale by D. S. ROWLAND, General Agent, 185 Washington street, Boston, where numerous letters certifying to the good effects of the medicine may be seen. Also, sold by most of the Postmasters in America. Price, three and one third shillings (\$2.40) per half ounce bottle, and six shillings (\$4.80) per ounce bottle.

For sale at the Rutland Book Store by W. FAY—Agent. Price \$2.50 per bottle.

LEVI LEWIS, Agent, Wells, Vt.

## Brandreth's Pills.

"The true riches of Life are Health."

WE know that health and ability to labor, is the wealth of a great mass of the people in this, as in most other countries. To preserve, therefore, that health by natural means, as a grand, moral and political science, to fail which, requires our utmost attention.

The unprecedented success which has resulted from Brandreth's Pills, during a period of upwards of eighty five years, the numerous and extraordinary cures which they have effected upon hundreds of individuals whom they have rescued from almost inevitable death after they had been pronounced incurable by the most eminent of the faculty—Dr. Brandreth, the proprietor of this universal medicine, in warmly and conscientiously recommending it to the special notice of the public.

Dr. Brandreth wishes mankind to consider this truth, that health depends on the state of purity in which the blood is kept, every part of the body being supplied daily with new blood from the food consumed, consequently, according to the purity of that blood, so must the state of the body be more or less healthy. To obtain therefore, the most direct purifier of the blood is a question of no little importance to every individual.

That Brandreth's Pills are the most direct purifiers of the blood, there will be no doubt when it is known that they have gained their present very extensive sale by their own intrinsic merit; proved by the numerous cures which they have accomplished in every variety of disease.

The period or season of the year is most surprising, that the operations being more or less powerful, according to the purity of the circulating fluid. On a person in a fair state of health, who is only constipated or slightly bilious, they will be scarcely felt; on the contrary, if the complaint be chronic and the constitution be much deranged, the effect generally is almost instantaneous, until the system be freed of some of its most vitiated and turbid humors. This accomplished, does sufficient to cause two or three evacuations daily, will soon remove the disease, and the constitution will soon be restored to a state of health and renewed vigor.

These pills are recommended by thousands of persons who have cured of consumption, influenza, colds, indigestion, dyspepsia, headache, neuralgia, rheumatism, nervous diseases, liver complaint, pleurisy, depression of spirits, fits, palsy, dropsy, croup, cough, whooping cough, quinsy, cholera, cholera morbus, gravel, worms, dysentery, deafness, scrofula, erysipelas, of St. Anthony's fire, scalds, white swellings, cancers, tumors, swollen feet and legs, piles, costiveness, all eruptions of the skin, female complaints of every kind, especially obstructions, relaxations &c. &c.

Such is the reputation, and so great the demand for the Genuine "Brandreth's Vegetable Universal Pills," that a counterfeit article is made, advertised and sold as genuine—and some individuals who sell the counterfeit pills, have advertised themselves as my agents, and I have found it necessary to preserve the reputation of my pills, and save the public from imposition, to furnish every agent with a certificate, which is as follows—

## "BRANDRETH'S VEGETABLE UNIVERSAL PILLS."

Security against Counterfeits.

The within named Ferre & Parmalee, of Middletown, Conn. are my appointed General Agents for the State of Vermont, Connecticut, (except Fairfield county,) Hampshire, Hampshire and Franklin Counties, Mass.; Cheshire and Sullivan Counties, N. Hampshire.

In the United States of America

And this letter which is signed by me B. BRANDRETH, in my own hand writing, must also be signed by the within named General Agent, whose name will also appear in the principal paper in the United States. This caution has become absolutely necessary, to guard the public against the numerous counterfeits which are out of the above popular medicine.

B. BRANDRETH, M.D.

New York, February 22, 1837.

Geo. P. Walton is our General Agent for Vermont (except Windsor, Windham, Rutland and Bennington counties) and authorized to appoint and supply agents in the State, except in the counties named above.

FERRE & PARMALLEE.
